NETWORKING

IHPI knows the power of collaboration, and we give members access to a range of events organized or co-sponsored by IHPI where you can meet other faculty with similar interests. These include our Research Seminar Series, annual Member Forum, and a special reception at the annual AcademyHealth conference. We also support a number of research interest groups around topics of relevance to our members (e.g., Opioids, Aging, Value of Care).

IHPI offers many different faculty engagement and leadership opportunities. You can lend your expertise as an R01 Bootcamp coach, or serve as an expert reviewer for a K Mock Study Section. You can also share your experience with the next generation of health services researchers by facilitating one of our student education sessions.
