IHPI is the nation’s leading university-based institute of health services researchers working together to improve the quality, safety, equity, and affordability of healthcare.

**Focused on Big Healthcare Challenges and Opportunities**

- Evaluating Medicaid policy and healthcare reform
- Promoting healthy aging
- Improving safety in healthcare
- Preventing opioid overuse and misuse
- Improving health equity and the health of communities
- Promoting greater value in healthcare
- Innovating in IT and healthcare delivery
- Precision health

IHPI members inform key health policy decisions by serving on state, federal, and nonprofit advisory committees, providing expert testimony and consultation to decision makers, and contributing to health policy panel discussions.

**A Community of Health Services Researchers Across U-M**

- **600+** Faculty Members
- **17** Schools, Colleges & Institutes
- **23** Collaborating Centers & Programs

**Academic Disciplines Represented**

- Architecture & Urban Planning
- Art & Design
- Business
- Dentistry
- Engineering
- Information
- Kinesiology
- Law
- Literature, Science & Arts
- Medicine
- Nursing
- Pharmacy
- Public Health
- Public Policy
- Social Research
- Social Work
- Women and Gender

KEY PARTNERSHIPS AND PRIORITIES

HEALTHY MICHIGAN PLAN
Evaluating Medicaid expansion in Michigan under state Department of Health and Human Services contract

NATIONAL POLL ON HEALTHY AGING
Understanding policy-relevant healthcare needs and values of older adults through a survey sponsored by AARP and Michigan Medicine

OPEN
OPIOID PRESCRIBING ENGAGEMENT NETWORK
A preventive approach to ending the opioid epidemic, in partnership with the Michigan Department of Health and Human Services, and BCBSM Value Partnerships

OPIOID SOLUTIONS
A central hub for U-M research, educational activities and community outreach related to opioids developed by the U-M Office of Research, the Injury Prevention Center, and IHPI

MICHIGAN PROGRAM ON VALUE ENHANCEMENT
Focused on improving value in healthcare, in partnership with Michigan Medicine

FY18 MEMBER RESEARCH
$951 Million in active sponsored research
$158 Million in HSR research expenditures representing over 10% of U-M total research expenditures

BIG IDEAS NEED BIG DATA
IHPI researchers study data from Medicare, Medicaid, Veterans Health Administration, private insurance, and Michigan statewide hospital quality data sources. They can also access U-M expertise in innovative quantitative and qualitative data analysis and methodologies.

TRAINING THE NEXT GENERATION OF HEALTH SERVICES RESEARCHERS
IHPI supports the education, training, and development of faculty, trainees, and students through:
- The IHPI Clinician Scholars Program (one of six national program sites)
- Health and Healthcare Research Master’s Program
- R01 and K Award workshops
- Research seminars on methodology and policy impact
- Emphasis on early career faculty professional development
- Graduate/undergraduate fellowships, internships, and skill building
